Subject: House Bills 5711, 5712, and 5713

Dear Representative Lyons,

I'm writing to urge you to vote no on House Bills 5711, 5712, and 5713. These bills are being rushed through Congress and have significant legal and criminal consequences for women and health care providers. The fact that they deal with abortion, yet lack language making exceptions for rape, incest, or abuse should alone be enough reason to vote No. But legislating more onerous requirements for a medical procedure that is legal and one that affects only women is unnecessary. I'd rather see the Michigan House take up legislation creating jobs and improving education in the state, things that will have a real impact on **all** the residents of Michigan, instead of focusing efforts on limiting access to healthcare for women.

Please prove that the Republican Party is not engaged in a war on women by voting no on House Bills 5711, 5712, and 5713.

Sincerely,
Michelle Jeffries
